**Notes to Editors:**

NESF is a specialist investment company that invests primarily in operating solar power plants in the UK. It is able to invest up to 15% of its Gross Asset Value in operating solar power plants in OECD countries outside the UK. The Company's objective is to secure attractive shareholder returns through RPI-linked dividends and long-term capital growth. The Company achieves this by acquiring solar power plants on agricultural, industrial and commercial sites.

NESF has raised equity proceeds of £591.9m since its initial public offering on the main market of the London Stock Exchange in April 2014. It also has credit facilities of £226m in place (£150m from a syndicate including MIDIS, NAB and CBA; MIDIS: £54.3m and NIBC: £21.7m).
